

Crows & Cranes

How to Play?

- Divide children into two groups and organise them in 2 lines parallel with each other.
- Name 1 line crows and the other line cranes.
- Coach calls either crows or cranes. If crows are called they must react quickly and run to allocated line away from cranes and cranes chase crows to try and catch crows before they reach line and so on.
- The key to the game is the way in which the coach rolls the "r" in cr,r,r,rows and cr,r,r,ranes.
